

New Trends in Research of Energetic Materials

Venue – lecture hall A1, University of Pardubice

NTREM 2019

April 10 – 12th, 2019

**First Announcement of
22nd International Seminar**

topic

Synthesis & Formulation

The twenty-second consecutive seminar on New Trends in Research of Energetic Materials (NTREM) is intended to be a world meeting where junior scientists and students meet with each other and also with well-established experts working in the fields of teaching, research, development, processing, analyzing and application of all kinds of energetic materials. The goal of the organizing committee is to create a pleasant atmosphere where young specialists from various countries will have an opportunity to exchange professional information as well as gain personal contacts.

University of Pardubice
Faculty of Chemical Technology
Institute of Energetic Materials
Czech Republic

Dates

Abstract – 31st, October 2018

Full text – 31st, January, 2019

Framework program of the 22nd Seminar NTREM

Tourist information

www.czechtourism.com/t/pardubice/

Venue

The seminar will traditionally take place at the main lecture hall of the University of Pardubice. The venue is conveniently accessible by walking from practically any hotel in the city center.

Walk through the small historical center of Pardubice; visiting the castle in town or the castle on Kuneticka Hora by the inline skating trail can help relax after the day of lectures. Some other historical landmarks are further located nearby and are easily accessible by car or train.
