NTREM 2024

April 17th – 19th, 2024

**First Announcement of
26th International Seminar**

topic

**New Energetic Materials
and Compositions**

The twenty-sixth consecutive seminar on new trends in research of energetic materials (NTREM) is intended to be a world meeting where junior scientists and students meet with each other and also with well-established experts working in the fields of teaching, research, development, processing, analyzing and application of all kinds of energetic materials. The goal the organizing committee is to create a pleasant atmosphere where young specialists from various countries will have an opportunity to exchange professional information as well as gain personal contacts.

Dates

Abstract – 27th, November 2023

Full text – 31st, January, 2024

Tourist information

Framework program of the 26th Seminar NTREM

Travel

www.czechtourism.com/t/pardubice/

Venue

The seminar will traditionally take place at the main lecture hall of the University of Pardubice. The venue is conveniently accessible by walk from practically any hotel in the city center.

Walk through small historical center of Pardubice, visit of the castle in town or the castle on Kuneticka hora by inline skating trail can help relax after the day of lectures. Some nice historical landmarks are further located nearby and are easily accessible by car or train.
