

New Trends in Research of Energetic Materials

Venue – lecture hall A1, University of Pardubice

April 22nd – 24th, 2026

First Announcement of 28th International Seminar

The twenty-eighth consecutive seminar on new trends in research of energetic materials (NTREM) is intended to be a world meeting where junior scientists and students meet with each other and also with well-established experts working in the fields of teaching, research, development, processing, analyzing and application of all kinds of energetic materials. The goal the organizing committee is to create a pleasant atmosphere where young specialists from various countries will have an opportunity to exchange professional information as well as gain personal contacts.

Dates

Abstract – 29th, November 2025
Full text – 31st, January, 2026

Tourist information

www.czechtourism.com/t/pardubice/

Venue

The seminar will traditionally take place at the main lecture hall of the University of Pardubice. The venue is conveniently accessible by walk from practically any hotel in the city center.

Walk through small historical center of Pardubice, visit of the castle in town or the castle on Kuneticka hora by inline skating trail can help relax after the day of lectures. Some nice historical landmarks are further located nearby and are easily accessible by car or train.

Framework program of the 28th Seminar NTREM
